

Home Language Survey

Federal Law Section 3127 Title VI – OCR Guidelines requires schools to determine the language(s) spoken at home by each student. This information is essential in order for schools to provide meaningful instruction for all students. Because language and cultural experiences are the tools for understanding our surroundings, answering the following questions will help us to understand each child’s educational needs. If a language other than English is indicated on the language survey, we are required by law to administer a language proficiency assessment.

Your cooperation in helping us meet this important requirement is requested.
